

Exploring Majors and Career Pathways

Spending as little as 15-30 minutes per week researching majors and careers using the following strategies can help you decide sooner and reduce the chance you will change majors in the future.

1. Use this List of Undergraduate Majors, circle 3-5 majors of interest to you to begin narrowing your options using the green list of majors and minors.
2. Discover the majors offered at UW Oshkosh. Visit the department websites and the bulletin to learn more. Consider your *interests* and *academic strengths* as you explore.
 - **UWO Website Search** : [majors and minors](#)
 - **UWO Website Search** : [bulletin](#)
3. Research majors and careers using the following websites.
 - **OOH; Occupational Outlook Handbook** -Tons of up-to-date career information from the Bureau of Labor Statistics – **Google search:** [OOH](#)
 - **What Can I Do with A Major In** - Get an easy-to-read printable handout of many related career options **Google search:** [What can I do with this major](#)
4. Visit this website or scan the QR code to discover more resources, take assessments and find out who on campus can help you with your decision.
 - **UWO Website Search** : [major and career exploration](#)
5. Identify your main interest areas below and learn about careers that align with these interest areas on ONET – **Google search:** [ONET](#)
