Stop MOTION ANIMATION...Animation, one picture frame at a time.

For Stikbot Animation You will need:

Smart Device; iPhone, IPad, Android, Tablet...

Tripod

Stikbot Animation App

Stikbots

Green Fabric or Paper

<https://play.google.com/store/apps/details?id=com.zingglobal.stikbot>

<https://itunes.apple.com/us/app/stikbot-studio/id995870996?mt=8>

Traditional Stop Motion You will need:

A camera and Tripod

A program to upload and organize photos in for animation

Props and characters to animate

Activate Background knowledge

- × What Stop Motion movies do they already know?
- × Have any of them seen/used and camera before?
- × Are they familiar with how a cartoon is made?

Project Beginning

Introduce stop motion animation Using a colorful, posable toy gets students interested

What makes a good story?

<https://www.youtube.com/watch?v=BSOJiSUI0z8&feature=youtu.be&list=PLgBt-YXKLID4r2uZqILPnEbWmiLaJj6ki>

Group writing day...or days...

Give the groups time to develop their story, experiment with the Stikbots, and design backgrounds.

App Day...Brace yourself

Allowing time for your students to work with the app and problem solve before they timeline of shooting begins is worth it.

---	--	--	---

What is the theme of your Stikbot Animation Story? Why did you choose this theme?

What is the strongest part of your project or story, or what do you feel you did well?

What is something you would change or “do-over” knowing what you now know?

Did you enjoy this project? Would you do this project again?

Marzano’s Levels of Understanding - Student Self-Evaluation Sheet

0	1	2	3	4	Notes:
Even with help, I still don’t get it.	I’m starting to get it with help, but I’m still confused.	I kind of get it , but I’m still making a lot of mistakes.	Yes, I get it!	I can teach it! I can even show you more!
