# Biology 105 Biological Concepts: Unity Section A09C Fall 2017

Dr. Bob Wise Office: HS16 Telephone: 424-3404 email: wise@uwosh.edu

# LECTURE INFORMATION

LECTURE SCHEDULE: 10:20-11:20 MWF in HS106.

**LECTURE TEXT:** MR Taylor, JL Dickey, EJ Simon, K Hogan and JB Reece (2017) **Campbell's Biology: Concepts and Connections**. Custom edition for the University of Wisconsin-Oshkosh (ISBN 10:1323675329; ISBN 13: 9781323675328). BUY IT, USE IT (see list of readings, below).

MASTERING BIOLOGY: Web content that comes with the textbook. USE IT.

**LECTURE EXAMS**: Four lecture exams will be given, the dates of which are provided in the syllabus. A missed exam will result in a score of zero for that exam, unless a student qualifies for a makeup exam.

**LECTURE MAKEUP EXAM:** One makeup lecture exam will be given on Friday, December 15<sup>th</sup>, 2017 during the regularly scheduled class period for anyone who missed one of the previous four lecture exams. This exam will be comprehensive (covering material from all four prior exams). In order to be eligible to take this exam a student must receive **prior** permission from me and permission will be considered only for those who contacted me before the exam missed. Only one missed exam may be replaced with the makeup exam score. The makeup exam cannot be used to replace a low score on a previous exam.

**LECTURE ATTENDANCE POLICY:** I will not take attendance. However given that each lecture represents ~10% of the subsequent exam, skipping lecture is the most foolish and grade-damaging thing a college student can do. I will not repeat lectures and I do not publish my lecture notes. I do, however, post pod-casts on D2L. If you want to know what will be on the next exam, you have to come to class every day. If you skip class you will have to get notes from a fellow student, or rely on the pod-cast. Any student with a valid excused absence will be allowed to make up any missed material, with the exception of in-class quizzes. However, an excused absence does not excuse a student from the responsibility of knowing the material covered during the day class was missed.

Students with disabilities are asked to contact their lecture and lab instructors in the first week of class in order for any possible accommodations may be arranged.

# LABORATORY INFORMATION

**LABORATORY TEXT: BIO 105: Concepts in Biology: Unity; Laboratory Manual**. You must bring it to every laboratory meeting. It contains a full explanation of every laboratory, instructions on how to conduct the laboratory exercise and pages that will be filled out and left with your instructor at the end of the lab period.

**LABORATORY ASSIGNMENTS:** Your laboratory instructor (of which we have many) is responsible for assigning and grading the 200 points of various lab reports, quizzes and worksheets. He/she will explain this the first day of lab.

**LABORATORY ATTENDANCE POLICY:** Students are required to attend the laboratory section in which they are enrolled. THERE WILL BE NO MAKE UP LABS. THEREFORE, MISSED LABS CANNOT BE MADE UP. It <u>may</u> be possible to attend an alternative section if there is room in that section and if both instructors are notified <u>in advance</u>. It is the responsibility of the student to contact instructors of the lab they intend to miss and the lab they wish to attend in its place. Lab instructors are under no obligation to accept other students into their labs and will only do so if there is space available. STUDY AIDS: Each student will need to develop a personal study system that works for him/her. Here are some suggested tools.

MANAGE YOUR TIME: Make up a weekly class and study schedule and stick to it.
ATTEND CLASS: Do not skip, pay attention, take good notes.
REWRITE YOUR LECTURE NOTES: Every lecture, before the next lecture.
USE THE TEXTBOOK: Don't just read it, use it.
TALK TO ME: phone, email, office hours, drop in (but not right before lecture!).
DEVELOP A STUDY ROUTINE: place, time, study partner, study group, study supplies, reward system
ATTEND S.I. SESSIONS: S.I. leader is Autumn Bradley. S.I. hours are posted on D2L.
GO TO THE READING AND STUDY SKILLS CENTER: 201 Nursing/Education, 424-1031, www.uwosh.edu/programs/readingstudycenter
GO TO THE CENTER FOR ACADEMIC RESOURCES: 102 Student Services Center, 424-2290, www.uwosh.edu/car/. Free

GO TO THE CENTER FOR ACADEMIC RESOURCES: 102 Student Services Center, 424-2290, <u>www.uwosh.edu/car/</u>. Free tutors are available.

GRADING: your grade will be based on 700 total points

**LECTURE GRADING**: There will be four lecture exams, each worth 100 points, for a total of **400 points**. There will also be **100 points** of Chapter Review Assignments accessible on the web via Mastering Biology.

**LABORATORY GRADING: 200 points** will be assigned to various lab reports, quizzes and hand-ins to be announced in laboratory by your lab instructor (see your laboratory syllabus).

**COURSE GRADE**: The 400 points from the lecture exams will constitute 57% of the total course grade, the 100 points from Chapter Review Assignments will constitute 14%, the 200 points total from the laboratory will constitute the other 29%. I do not curve. I do not normalize. End-of-semester letter grade assignments will be made using the grading scale given below.

## **GRADING SCALE:**

| <u>Total points</u> | Percent   | Letter grade |
|---------------------|-----------|--------------|
| 700-644             | 100-92.0  | А            |
| 643-630             | 91.9-90.0 | A-           |
| 629-616             | 89.9-88.0 | $B^+$        |
| 615-574             | 87.9-82.0 | В            |
| 573-560             | 81.9-80.0 | B-           |
| 559-546             | 79.9-78.0 | $C^+$        |
| 545-504             | 77.9-72.0 | С            |
| 503-490             | 71.9-70.0 | C-           |
| 489-476             | 69.9-68.0 | $D^+$        |
| 475-434             | 67.9-62.0 | D            |
| 433-420             | 61.9-60.0 | D-           |
| 419-0               | <59.9     | F            |

#### **OFFICE HOURS**

Monday and Wednesday 4:10-5:30, or by appointment. I will gladly answer any questions via email or if you stop by my office. The best way to reach me is right after lecture or via email. The worst time is right before lecture.

# STATEMENT ON USE OF ELECTRONIC DEVICES IN CLASS

In order to protect and foster the proper learning environment, the use of cell phones is not allowed in lecture or lab. That includes sending or receiving voice or text messages, or even checking to see if new calls/messages have come in. Please turn your phone off at the start of class to prevent interruptions from incoming calls. Wireless laptop computers are allowed, but only if their use is limited to activities directly related to course performance such as taking notes or looking up content on the web. Use of portable music devices is not allowed in lecture or lab at any time. Use of any electronic device during an exam will result in an automatic zero for that exam.

#### STATEMENT ON ACADEMIC DISHONESTY

Students are referred to the University of Wisconsin Oshkosh Student Discipline Code as detailed in Specific provisions of Chapter 14 of the State of Wisconsin Administrative Code. Any student(s) found in violation of any aspect of the above Code (as defined in sections UWS 14.02 and 14.03) will receive a sanction as detailed in UWS 14.05 and 14.06. Sanctions range from an oral reprimand to expulsion from the University of Wisconsin-Oshkosh. Students have the right to request a hearing and to appeal sanctions (as defined in UWS 14.08-14.10). Talking during an exam or looking at another student's exam will constitute grounds for disciplinary action.

Sadly, I have enforced, and I will continue to enforce, the above policy.

## STATEMENT ON THE VALUE OF A LIBERAL ARTS EDUCATION

Our goal in this course is to provide you with basic knowledge about *life* and how it operates. For some or you, this course will be a precursor to further science coursework. For others, it will become part of your education in the liberal arts and your sole contact with such material. Biology is in the news every day: medicine, environmentalism, genetic engineering, "intelligent design", etc. To understand the implications of all this, you need to know the basics of biology. If studying *life* isn't germane to your *life*, what is?

# Lecture and Laboratory Syllabus--Biology 105

| Date   | #   | Торіс  | Text Sections  |
|--|---|--|--|
| Sept. 6  | 1   | Syllabus and course business   |  |

| Nov. 22 |    | Thanksgiving recess (starts Tuesday Nov. 21 after evening classes)   | ***         |
|---------|----|--|-------------|
| Nov. 24 |    | Thanksgiving recess  | ***         |
|         |    | No labs  |             |
| Nov. 27 | 31 | How Genes are Controlled: Genetic Basis of Cancer  | 11.15-11.18 |
| Nov. 29 | 32 | DNA Technology and Genomics: Gene Cloning; Genetically Modified Organisms  | 12.1-12.10  |
| Dec. 1  | 33 | <b>DNA Technology and Genomics:</b> DNA Profiling, Genomics and Bioinformatics<br>Lab 8.5: Mendelian Genetics: score F2 adults and discuss results | 12.11-12.21 |
|         |    | Lab 9.4: Genetic Engineering: inspect plates and discuss results   |             |
| Dec.4   | 34 | How Populations Evolve: Darwin's Theory of Evolution   | 13.1-13.7   |
| Dec. 6  | 35 | How Populations Evolve: Evolution of Populations; Mechanisms of Microevolution   | 13.8-13.18  |
| Dec. 8  | 36 | <b>The Origin of Species</b> : Defining Species, Mechanisms of Speciation<br>Lab 10: Evolution and Speciation                                      | 14.1-14.11  |
| Dec. 11 |    | Catch up day (if needed)   | ***         |
| Dec. 13 |    | Lecture Exam IV (on lectures 26-35, Chapters 10-15)  | ***         |
| Dec. 15 |    | Make un Exam (comprehensive)   | ***         |
