Ms. Dawn Brown
Campus Relations Coordinator
Oshkosh Corporation
425 North Washburn Street
Oshkosh, WI 54901

Dear Ms. Brown:

I am writing to apply for the Global Procurement and Supply Chain Internship posted on the Oshkosh Corporation website. I found out about this opportunity through my professional skills and development course. Oshkosh Corporation is a company I am particularly interested in working for because as a firefighter, my brother uses Pierce fire-trucks to save lives. I would be honored to work with a company that builds lifesaving products. Through teamwork and time management skills I plan to fully assist Oshkosh Corporation in achieving its mission.

In several experiences, I demonstrated strong teamwork skills. As a server at the Alumni Welcome and Conference Center at UW Oshkosh, I work on a team to set up for large scale events for a variety of clients. In addition to my teamwork experience as a server, I also work in a team environment in my business courses. For example, in a marketing course, I took on a leadership role during our market analysis project. I coordinated the logistics of the team meetings and found ways to incorporate each team member based on their skill set. Our project was a success as we earned a high grade and positive feedback from classmates. Teamwork is something I can successfully incorporate at Oshkosh Corporation.

The Global Procurement and Supply Chain Internship position at Oshkosh Corporation requires time management skills to decide which tasks need to be completed first and how long they should take. I pride myself in time management and the ability to prioritize necessary activities. I balance school, work, and sports while maintaining a 3.5 cumulative GPA. My coaches consistently commend me for having one of the highest GPA's on the football team, as the dedication to academics and athletics is tough to balance.

You will find my resume attached for your review. I am thrilled about the opportunity to work with logistics, operations, and purchasing inventory at an efficient workplace like Oshkosh Corporation. Thank you for your time and consideration.

Sincerely,

Taylor Titan
