

Internship/Co-Op Course Options

The UW Oshkosh College of Business believes that an experiential learning component is essential to your future success in business. Therefore, an internship is a requirement of your BBA degree. Several options exist to complete the internship course requirement. **Students must complete the internship/co-op course concurrently with their internship/co-op.**

College of Business

If you have any questions or want to schedule a meeting to discuss the course/credit option that is best for you, please contact the College of Business

	Internship	Co-Op	Entrepreneurship Option
Experience Type	An internship is a form of experiential learning that integrates knowledge and theory learned in the classroom with practical application and skills development in a professional setting. Internships give students the opportunity to gain valuable applied experience and make connections in professional fields they are considering for career paths. Additionally, internships give employers the opportunity to guide and evaluate talent.	A cooperative (co-op) education experience is typically a full-time, off-campus professional experience with responsibilities similar to that of a traditional internship that lasts 4-8 months. <i>It is expected that no other coursework be taken during this time.</i>	This is an alternative option for students who envision starting or growing their own business as opposed to seeking traditional employment upon graduation. The business endeavor may come in the form of researching a nascent (idea stage) venture, assisting/launching an early-stage venture, or working on an existing venture project.
