Introduction

The Office of Human Resources has implemented this system in order to automate all tasks relating to the recruitment process for all professional positions on campus. This system will **not** house student positions. This training manual focuses on the following actions in PageUp:

1. Create/edit/approve an electronic offer of employment
2. General onboarding/orienting a new hire

The Employment Application System is designed to run in a web browser over the Internet. The system supports browser versions of Chrome, Firefox, Internet Explorer 5.5 or above, for optimal results Internet Explorer 8 is suggested. The system also requires you to have Adobe Acrobat Reader installed. This is a free download available at [www.Adobe.com](http://www.Adobe.com). To ensure the security of the data provided by applicants, the system will automatically log you out after 120 minutes of inactivity. However, anytime you leave your computer we strongly recommend that you save any work in progress and log out of the system by clicking on the Logout link located on the top right side of your screen.

Access Within the System

Each user on campus has been categorized into a particular user group, which provides them certain permissions in the PageUp system. Please see below for a brief overview of access granted to different types of users for the actions covered in this guide.

Modes of Training

The recruitment team in the Office of Human Resources understands that every individual has a different learning style. Please see below for the various modes of training offered on this piece of the PageUp system:

PageUp training sessions are typically offered on a weekly or bi-weekly basis by the recruitment team in the Office of Human Resources. A training schedule is posted on: [http://hr.uwosh.edu/recruitment/](http://hr.uwosh.edu/recruitment/)

If you would like to have a member of the recruitment team walk you through the offer process over the phone, please call the Office of Human Resources at 920-424-1166 and schedule a time for this phone call.

If you feel comfortable solely using this training guide to create your offer of employment, this is acceptable. Please know that a member of the recruitment team may reach out to you if there are any follow up items up for discussion.
Homepage Tips
When you log in to PageUp, you should see a homepage looking similar to this one. Familiarize yourself with the options on this page.

On the top right side of the homepage, click here to expand your action menu. This will be helpful to have expanded at all times.

In order to access the homepage, the action menu must be expanded.

When your action menu is expanded, you have access to all items listed on the homepage, regardless of what page you’re currently viewing.
Initiating an Electronic Offer

Step 1: Receive search committee recommendations, decide on a final candidate

The search and screen committee should provide the hiring supervisor with their final recommendations by moving applicants into the Recommend for hire status or Not recommended for hire status. The hiring supervisor must review which applicants sit in which status and make a decision as to which candidate to offer the position. If the hiring supervisor is interested in offering the position to a candidate that was not recommended by the search and screen committee, they must prepare a written justification as to why they want to offer the position to the particular candidate. This justification must be sent to the Office of Human Resources for review and will either be approved or declined. Once the hiring supervisor has received approval to offer the position to a particular candidate, they must log into PageUp to formally request the components of their offer. This electronic offer request must be completed and approved BEFORE an offer is verbally made.

Step 2: Log into PageUp

To log into the PageUp system, you may follow the link below:

Oshkosh.pageuppeople.com

Your username and password is pre-set as your NetID, which you use to log into multiple systems on campus.

Step 3: Navigate to the applicant you plan to make the offer to

Click Manage Jobs on the right side action menu. All jobs connected to you should be listed. Find the job you will be making an offer for by using the filters on the header bar, or by using the search tools on the top left side of the page.

Once you find your job, click on the number of applications. This will bring you to a list of all applicants for the position.
Find the applicant who you would like to offer the job to from the list and click on the **first or last name**. You will be directed to the applicant card.

![Image of applicant list](image1)

**Step 4: Change the status of the applicant AND the job**

You are now viewing the **applicant card**. Near the middle of the page, refer to the **Applications** section (pictured below). Click on the **status** of the application.

![Image of application status](image2)

A box will appear where you are prompted to change the status of the application. Select **Request offer approval** and click **Next**.
You will be directed to a page where the system will document your updates. There is no need to select a communication template. Select No when asked to E-mail Applicant.

On the bottom of this page, you will be asked if you’d like to update the job status of the position. You must check Yes in order for the offer request process to begin. Click Move now.

You will now be directed to complete the offer card. This is a form in the system that will allow you to make requests for the offer you will eventually make.
Step 5: Complete the offer card fields

**Warning:** The information entered into the fields on the offer card will eventually be merged directly into the official contract/offer letter. The accuracy of this information is very important. You will notice that certain fields will be pre-filled based on the information gathered in the beginning of the process. Please complete all applicable fields of the offer card. (see below for helpful tips)

**Position Openings**

- Position no: 1293858
- Type: New
- Applicant: Titus Titan

**Position Title:** Academic Department Associate

**Position Type:**
- Select

**Effective date (start date):**
- dd mmm yyyy

**End date (if applicable):**
- dd mmm yyyy

The **Position Openings** section prompts the hiring supervisor to select which position they would like to assign to the candidate once hired if they are hiring for more than one position. If there is only one position available, the system will default the selection to the sole position number available.

Estimate an **effective date** while considering the length of time you will need for the approval process and the time span where the candidate will need to give notice to a current employer.

An **end date** is necessary for any positions on a contractual basis, temporary positions, project appointments, limited appointments, etc. This information is required for the contract/offer letter.

**Certain fields require specific formatting, which is stated directly below the open field, if applicable.**

**EMPL Class:** University Staff

**Division:** F08 - Academic Affairs

**Department:** College of Education & Human Services

**Salary or hourly rate:**
- Example: 50,000 or 15.00

**FTE(s):**
- 1.0

**Work Schedule:**
- Example format: 7:45am to 4:30pm; Monday through Friday

**Supervisor Name/Department Chair:**
- Karen Steinhoffer
- Email address: steinhok@uwosh.edu

**Previous Incumbent:** Titus Titan

**Position of Trust:**
- Yes
- No

Position requires unsupervised or significant access to minor or accepted for enrollment at a UW System Institution and minor property access; financial/fiduciary duties; and all executive p
Applicable solely to Faculty positions, complete the details of the position in order for the contract to be generated. If it applies and you are unsure of the **Actual Salary**, leave this blank and the Office of Human Resources will calculate this during the approval cycle.

If this position will serve as a time approver, please list the names of those current employees who will be reporting their time to this candidate. If you are not yet sure who will be reporting their time to the candidate, you must report this to the Office of Human Resources once it has been determined.
Applicable solely to Instructional Academic Staff positions, complete the details of the position in order for the contract to be generated. If it applies and you are unsure of the Actual Salary, leave this blank and the Office of Human Resources will calculate this during the approval cycle.

Applicable solely to Non-Instructional Academic Staff positions, complete the details of the position in order for the contract to be generated. If it applies and you are unsure of the Actual Salary, leave this blank and the Office of Human Resources will calculate this during the approval cycle.

You may use the Additional Comments section to justify any piece(s) of information provided on the offer card. You must also include any additional offerings you’d like to include in the offer, such as: moving reimbursement, start-up costs, housing, etc. This will be manually written into the contract/offer letter.
The **Offer Progress** section provides an automated status update regarding whether the offer has been electronically accepted or declined by the candidate. Nothing needs to be entered/edited in this section, it simply serves as a status update.

---

**Step 6: Assign users and approvers to the offer**

On the bottom of the offer card, begin by assigning an Originator. The **Originator** should be listed as the person completing the offer card. This will instruct the system as to who should be updated once the offer has been fully approved.

Select the appropriate approval process based on whether the position is paid on an hourly OR a salary basis.
Warning: The Human Resources and Budget Office approval fields will auto populate once you select the appropriate approval process. Do NOT change the approvers in these fields.

Step 7: Finalize and send offer card through approval process

Once you’ve completed all fields of the offer card, have assigned your Users and Approvers and have reviewed the offer details, click Save. This will initiate the approval process by sending instantaneous emails requesting approval from each approver, one at a time. The Originator of the offer card will be notified by email once all approvers have approved the offer. If an approver declines the offer approval request, the Originator of the offer card will be notified, including a justification as to why it was declined.

Step 8: Once offer request approved, verbally offer the position

Once you receive an automated email from PageUp stating that the position has been fully approved, review the offer card to understand what has been approved in case any updates have been made by the approvers. You may verbally offer the position to the proposed candidate.

Step 9: Once offer has been accepted, notify Office of Human Resources A.S.A.P. (recruitment@uwosh.edu or 920-424-1166)

Once an offer has been accepted, the hiring supervisor or administrative support staff must immediately notify the Office of Human Resources. This will allow HR to send a formal contract/offer letter right away to solidify the start date and request an electronic signature. Once the new employee has electronically accepted the offer of employment, they will be automatically redirected to the onboarding portal. The onboarding portal will provide them with necessary employment paperwork, a warm welcome to the campus community, and a list of general tasks that need to be completed within a particular timeframe to make for a smooth transition to the campus.
Using the Onboarding Module

Step 1: Access the onboarding portal

Once the new hire has electronically accepted the position, they will be directed to the onboarding portal, which is set up in a general fashion and can be edited or added to based on the department-specific needs. Tasks are assigned to the new hire to prepare for their first day, and to properly orient them once they are officially on campus. The guide below will walk through the process of adding tasks for the new hire to complete, as well as a few other action items.

Locate the candidate you are hiring. You may view the offer details from this page. To access the onboarding module, click View all tasks next to the new hires name.

Step 2: Customize the onboarding tasks

The onboarding portal will have multiple onboarding tasks pre-populated by the Office of Human Resources. Many of these pre-populated tasks revolve around required employment paperwork. Do not delete these pre-populated tasks.

On the top right side of the onboarding page, you will notice an icon key for the action items included in the onboarding portal. Reference this key when making changes/additions to the onboarding tasks.

- **Create a new task**

  As you can see, all onboarding tasks are separated into when they are due (before first day, first day, first week, etc.). When creating a new task, you must decide when the specific task should be completed and click Add new task underneath that specific section.
Label the task, and assign a date of when the task should be completed by. You may then describe the task in the Content section including the necessary details and links for the employee to successfully accomplish the task.

Disregard Activity type. Select whether the task needs to be completed solely by the new employee, solely by the hiring manager, or by both the new employee and hiring manager under Task allocated to.

- **Complete a task**

  To complete a task as a hiring supervisor, click the title of the task. Once the task has been opened, click Mark as completed.

- **Edit a task**

  To edit a task, click the pencil button next to the specific task. This will allow you to edit the title, group, date, deadline, content, and who the task is allocated to.
- **Re-order tasks**

To re-order tasks, **click and hold** on a task. Your cursor will turn into a cross-arrow icon and you may drag the task into a new location or group.

- **Notify the candidate of updates to the onboarding workflow**

On the top left side of the page, click **Notify updates**.

An email template will appear, which you may not modify. You may edit the email of the sender, if necessary. You may also change the subject line of the email. Once complete, click **Send**.

- **Filter tasks**

You may filter tasks based on who the tasks are assigned to by clicking on one of the following buttons.

Although the position is now closed, the onboarding module will continue until all task time periods have passed. The new employee and hiring supervisor may log into the PageUp system at any time to access these tasks.
