Workday for Research Administration Staff

Part of Workday Financial Management (FIN), Workday Grants Management is the flexible, cloud-based tool UW System chose to support post-award financial functions and reporting across the UW System. This tool provides a user-friendly environment for research administrators to perform tasks like award closeout, sponsor billing and receivables, and everyday grants management activities.

Workday Grants Management will integrate and be supplemented with functionality from Huron Research Suite, which will be used primarily to manage pre-award tasks.

What's Happening in Workday Grants Management

- Award closeout
- Award setup and maintenance*
- Grants management*
- Sponsor billing and receivables

* Supplemented with Huron Research Suite functionality.

Benefits for Research Administration Staff

- Improved access to data pre-award through post-award
- Easier-to-manage budgets and real-time information
- Improved ability to comply with sponsor requirements
- Better insights and ability to evaluate performance

Key Dates
