

Student Technology Fee Committee 2016-2017
Annual Report on Proposals Funded
September 22, 2017

Proposals Funded

The Committee received 23 proposals for funding for the 2017-2018 academic year from a variety of departments, faculty, and staff. In total, the Committee awarded funds to 15 of the 23 proposals. Below are the 15 proposals in the order of submission to the committee. Each proposal is designated by the proposal number and name followed by a brief description and the amount approved for funding by the Committee.

1. Career Management Resources for Students

Requested career management tools to connect students with employers through advanced technologies that provide experience and feedback to students. Funded: **\$11,838.00**

2. Online Learning Environment Tutorials

Requested to hire one or two student workers to cover approximately 20 hours a week to develop individual tutorials and an overall online guide to using the online learning management system. Funded: **\$11,000.00**

3. Wellness Technology

Requested funds to provide support to students through alternative ways to enhance their wellness. Funded: **\$0.00**

4. Interactive Lab

Requested 2 TV mounts and hookup for Criminal Justice Student Lab in order to allow the student lab to be interactive with the professors. Funded: **\$0.00**

5. Chromebooks, cases, card readers

Requested funding for 40 chromebooks, 40 protective cases, and 10 card readers in order to utilize the Student Success Collaborative (SSC) program which will allow tutors to create online tutoring session reports. Funded: **\$5,732.00**

6. Management system, disability services

Requested funds to purchase an online data management system to allow students more access to information, share information with constituents across campus, and provide more efficient and effective service to students. Funded: **\$0.00**

7. Livescribe Smartpen for Note Taking

Requested Livescribe Smartpens to help assist students with disabilities taking notes. Smartpens would be available for students to check out and use during classes.

Funded: **\$1600.00**

8. Campus-wide Student Printing

Requested funding to cover the cost of student printing on campus up to the current limits of 2,500 pages per student per year. This will make it easier for students to print what they need for classes without additional per page costs. Funded: **\$160,000.00**

9. Scott hall wireless upgrade

Requested funds to replace the WAP 93H single band radio model for the new model WAP 303H to increase overall coverage to students in Scott Hall. Funded: **\$0.00**

10. GCA Lab iMacs for Accessibility

Requested funds to purchase 5 27" iMacs for use in the GCA labs for students who need special accommodations for their computer usage. Funded: **\$12,000.00**

11. Polk Scanner Maintenance

Requested to purchase four maintenance agreements to cover costs of breakdowns and part replacements for the Polk Library scanners. Funded: **\$1,720.00**

12. Polk Library Printer Replacement

Requested to replace three 5+ year old printers still in use on the first, second and third floors of the library. Funded: **\$1292.74**

13. Lab Consultants-Polk 101 Reference Lab

Requested compensation for Polk 101 Reference Lab Consultants. Consultants make it possible to offer assistance to students during and outside of the regular staff hours.

Funded: **\$18,000.00**

14. Polk Library Computer Replacements

Requested to replace 24 outdated student computers in Polk Library with new HP Elite mini-computers. Funded: **\$24,560.26**

15. Advance Titan Digitization & Access

Requesting funds to digitize and microfilm Advance Titan issues from the past seven years to its online archive accessible via Newspaperarchive.com. This will make the issues fully searchable and accessible online for students, alumni, researchers, and University staff. Funded: **\$791.00**

16. Titan TV Expansion Project

Requesting funding for a converter that will send the station's signal to the residence halls in HD and a media encoder that includes a software database to allow for the digitizing and cataloging of content. Funded: **\$28,590.86**

17. Student Organization Database Management

Requested funding for a CollegiateLink software license for student organization database management. Funded: **\$8,000.00**

18. College Scheduler

Requested funds to renew College Scheduler. This allows all UWO students to plan and schedule their course schedules and reduces the amount of time needed to put a schedule together. Funded: **\$14,000.00**

19. UpToDate Anywhere Access

Requested funds for UpToDate anywhere access. A evidence based resource for medical knowledge that is accessible on campus by students, staff, and faculty for both educational and personal use. Funded: **\$0.00**

20. Lightning Detection System

Requested funds for a lightning detection/weather station, outdoor alert system, and annual service subscription. It can monitor severe weather/in-cloud lightning and create local alerts in real time. Funded: **\$0.00**

21. iPads for UARC appointments

Requested funds for 21 iPad Air Wi-Fi 32GB to enhance students' advising experience. This will allow for an iPad to be placed in each academic advisors' office for student use. The results will be decreased printing and increased student engagement and learning. Funded: **\$0.00**

22. WCONLINE Software and Licensing

Requested funds to utilize WCONLINE for the Writing Center. It allows students to schedule F2F, online, or eTutoring appointments and provides an online appointment platform with video chat, whiteboard, and more. Funded: **\$715.00**

23. SSC Suite 102 Student Printer

Requested funds to cover paper and toner costs for the printer in the SSC. Funded: **\$0.00**
