# Fall 2015 University Studies Program Direct Assessment Results Executive Summary 

## Fall 2015 University Studies Program Direct Assessment Results

 Executive Summary
## Background

This report is a part of our University Assessment plan, approved by Faculty Senate. These data will be part of the Oshkosh Student Achievement Report and the documentation for our Higher Learning Commission (HLC) visit. The following is a brief summary of key survey observations. It is followed by several tables and charts which portray key items. The full survey results are available from University Studies Program or the Office of Institutional Research.

## Key Observations

- There were 263 possible Quest 1, 2, 3, WIBIS, and Explore courses. Responses were received from instructors of 111 of those courses.
- 34 academic departments were represented, the most were from English ( $n=11$ ). See Table 1 for a breakdown for each department.
- Each of the three signature questions was covered, see Chart 1 for the number of courses that covered each signature question.
- The faculty were asked to focus on one assignment then copy and paste the description of the assignment from their syllabus into the survey instrument. Table 2 is a summary of the types of assignments discussed in the syllabus descriptions. Most of the assignments were in the form of a written paper (54\%). A few assignment what output the assignment was asking for could not be determined, so these were categorized as unknown (4.0\%).
- Nearly all sections required either the key assignment to be uploaded to the student's eportfolio (45\%) or connected it to the signature question of the course (33\%). See Chart 2.
- Chart 3 reveals that all 13 UW Oshkosh Essential Learning Outcomes (ELO) were represented by the responding courses. The most frequent were Critical and creative thinking (22.2\%), Written and oral communication (14.8\%) and Intercultural knowledge and competence (13.9\%).
- Tables 3 and 4 summarize the performance levels by Essential Learning Outcome (ELO). Overall students perform at proficiency with an average of 18 students. The ELO with the greatest percentage of students showing highly proficient was Civic learning-local and global (47.7\%) and the greatest percentage of students showing proficiency was Foundations and skills for lifelong learning (54.1\%). Special attention should be paid to the ELO Quantitative literacy, a majority of the students ( $31.0 \%$ ) showed no or limited proficiency. These tables are followed by charts with each ELO broken down individually to show proficiency levels.
- The survey inquired what future changes instructors expect to make to the assignment based on student results. Table 5 is a ranked summary showing the expected changes. The most expected changes were a) more signature question discussion ( $n=17$ ) and a tie between $b$ ) change of instructional methods ( $n=16$ ) and c) reorganizing course sequence of content ( $n=16$ ).

Table 1. Responding Departments

| Department | Sections Responding |
| :--- | :---: |
| Anthropology | 4 |
| Art | 3 |

## Chart 1. Signature Question for this Course

Table 2. For this survey, you will focus on one assignment or assessment activity from your course. Briefly describe the assignment/assessment activity. You may wish to copy/paste the description from you syllabus or other course materials in the box below.

| Assignment Type | Number | Percent |
| :--- | :---: | :---: |
| Discussion | 2 | $2.0 \%$ |
| Exam | 9 | $9.0 \%$ |
| Field Study | 1 | $1.0 \%$ |
| Group Project | 3 | $3.0 \%$ |
| Lab Assignment | 4 | $4.0 \%$ |
| Paper | 54 | $54.0 \%$ |
| Paper And <br> Presentation | 2 | $2.0 \%$ |
| Portfolio | 2 | $2.0 \%$ |
| Presentation | 5 | $5.0 \%$ |
| Quiz | 2 | $2.0 \%$ |
| Simulation | 1 | $1.0 \%$ |
| Speech | 4 | $4.0 \%$ |
| Other | 7 | $7.0 \%$ |
| Unknown | 4 | $4.0 \%$ |
| Total | 100 | $100.0 \%$ |

## Chart 2. This assignment was:

## The Assignment Was

Chart 3. Identify the student learning outcome (SLO) from your course syllabus that relate best to the assignment/assessment you described in question $\mathbf{3}$ above.

Table 3. Enter the number of students who performed at each of the following levels out of the total number of students in the course:

| Answer | Min <br> Value |  |  |
| :--- | :---: | :---: | :---: |
| Number of students performing at High Proficiency | 0 | Max <br> Value | Average <br> Value |
| Number of students performing at Proficiency | 0 | 138 | 13.08 |
| Number of students performing at Some Proficiency | 0 | 75 | 18.07 |
| Number of students performing at No/Limited <br> Proficiency | 0 | 68 | 5.23 |

Table 4. Summary of the distribution of performance level by Essential Learning Outcome

|  | High <br> Proficiency | Proficiency | Some <br> Proficiency | No/Limited <br> Proficiency | Total <br> Students |
| :--- | :---: | :---: | :---: | :---: | :---: |
| ELO: Civic learning-local and global | $47.7 \%$ | $36.1 \%$ | $8.6 \%$ | $7.5 \%$ | 266 |
| ELO: Critical and creative thinking | $25.5 \%$ | $37.1 \%$ | $23.1 \%$ | $14.4 \%$ | 1477 |
| ELO: Ethical reasoning and action | $37.5 \%$ | $40.3 \%$ | $14.8 \%$ | $7.4 \%$ | 176 |
| ELO: Foundations and skills for <br> lifelong learning | $16.2 \%$ | $54.1 \%$ | $20.0 \%$ | $9.7 \%$ | 185 |
| ELO: Identification and objective <br> evaluation of theories and <br> assumptions | $41.0 \%$ | $37.1 \%$ | $15.1 \%$ | $6.8 \%$ | 205 |
| ELO: Intercultural knowledge and <br> competence | $42.0 \%$ | $37.2 \%$ | $14.5 \%$ | $6.4 \%$ | 519 |
| ELO: Knowledge and human <br> cultures and the physical and <br> natural world | $19.8 \%$ | $41.8 \%$ | $24.1 \%$ | $14.3 \%$ | 1171 |
| ELO: Knowledge of sustainability <br> and its applications | $34.4 \%$ | $37.0 \%$ | $21.9 \%$ | $6.8 \%$ | 192 |
| ELO: Learning: Integrated, <br> synthesized and advanced | $31.6 \%$ | $28.9 \%$ | $31.6 \%$ | $7.9 \%$ | 38 |
| ELO: Quantitative literacy | $26.9 \%$ | $24.0 \%$ | $18.1 \%$ | $31.0 \%$ | 171 |
| ELO: Teamwork, leadership, <br> problem-solving | $29.7 \%$ | $51.4 \%$ | $12.2 \%$ | $6.8 \%$ | 74 |
| ELO: Technology and Information <br> Literacy | $38.7 \%$ | $48.0 \%$ | $8.0 \%$ | $5.3 \%$ | 75 |
| ELO: Written and oral <br> communication | $27.1 \%$ | $44.2 \%$ | $20.5 \%$ | $8.3 \%$ | 532 |

Table 5. Describe any changes you are planning to make to this assignment/activity based on the students' results (choose all that apply).

| Future Expected action(s) | Responses | Percent |
| :--- | :---: | :---: |
| More signature question discussion | 17 | $10.0 \%$ |
| Change of instructional methods | 16 | $9.4 \%$ |
| Reorganizing course sequence of content | 16 | $9.4 \%$ |
| Creating a rubric or using a rubric for scoring | 14 | $8.2 \%$ |
| OTHER | 14 | $8.2 \%$ |
| Using other instructional materials | 13 | $7.6 \%$ |
| Elaborate the class expectations $\backslash M e e t ~ i n d i v i d u a l l y ~$ | 11 | $6.5 \%$ |
| Talking to other faculty who teach courses in the program | 11 | $6.5 \%$ |
| Using guided discussions in class | 9 | $5.3 \%$ |
| Adding other assignments | 8 | $4.7 \%$ |
| Giving more practice problems prior to the assessment | 8 | $4.7 \%$ |
| More writing $\backslash a d d i t i o n a l ~ t a r g e t e d ~ a s s i g n m e n t s ~$ | 6 | $3.5 \%$ |
| Move assignments and $\backslash o r$ final project earlier | 6 | $3.5 \%$ |
| Additional reflective writing | 5 | $2.9 \%$ |
| Modify environment to assist students conceptualize material | 4 | $2.4 \%$ |
| Selecting alternative assessment format | 4 | $2.4 \%$ |
| Narrow assignment scope | 3 | $1.8 \%$ |
| Refer to Writing Ctr \& Academic Support centers | 3 | $1.8 \%$ |
| Move peer review out of class | 2 | $1.2 \%$ |
| Using an online discussion or blog entry system between classes | 0 | $0.0 \%$ |

## Fall 2014 and Fall 2015 Indirect Assessment for Quest I Executive Summary

## Fall 2014 and Fall 2015 Indirect Assessment for Quest I Executive Summary

## Background

This report is a part of our University Assessment plan, approved by Faculty Senate. These data will be part of the Oshkosh Student Achievement Report and the documentation for our Higher Learning Commission (HLC) visit. The following is a brief summary of key survey observations. It is followed by a number of charts and tables which portray key items. The full survey results are available from University Studies Program or the Office of Institutional Research.

## Key Observations

- There were 528 student who responded; 351 indicated they were female and 155 students indicated they were male. This question was only asked in Fall 2014, so there are no responses for the Fall 2015 respondents. See Table 5 for the ethnic background of the respondents.
- The students were asked which signature question was the focus of their Quest I course. All of the signature questions were represented in their responses. 56 (11\%) students did not know which question was the focus of their course.
- Intercultural Knowledge and Competence (How do people understand and bridge cultural differences?) - 182/35\%
- Sustainability (How do people understand and create a more sustainable world?) 163/31\%
- Civic Learning/Civic Knowledge and Engagement (How do people understand and engage in community life?) - 124/24\%
- The students were asked to what extent they agree or disagree with statements about their Quest I course. Overall, the students felt comfortable in their Quest I course. About half of the students felt their Quest I course helped them adjust to being a college student, but about a quarter were not sure and another quarter felt it did not help them adjust to being a college student. The same was true for their feelings about how helpful the instructor was in helping them gain an interest in the topic. See Table 1.
- When asked to agree or disagree with questions about the peer mentor in their Quest I course, a majority of the students felt that the peer mentor provided useful advice, but about a quarter of the students disagreed. Only half of the students felt that their peer mentor was available to them, which might explain why $41 \%$ of the students didn't connect with their peer mentor. See Table 2.
- The student found several of the elements of the Quest I course to be valuable. The found the small class size and classroom environment and interaction to be very valuable. They also found the other elements to valuable. In the Fall of 2014, the students were asked about four additional elements. Three of those they found valuable; Early Alert, first year experience content, and the paired courses. They did not find the MAP-Works Survey summary and recommendations to be valuable. See Table 3.
- Finally, the students were asked to choose the statement that best described why they chose that particular Quest I course. Most of them chose their Quest I course because they were interested in the subject and it fit in their schedule. See Table 4.

Table 1. Think about your Quest I course. Do you agree or disagree with the following statements?

| Survey Question/Prompt | Agree <br> $\# / \%$ | Not Sure <br> $\# / \%$ | Disagree <br> $\# / \%$ | Total <br> Responses |
| :--- | :---: | :---: | :---: | :---: |
| My Quest I course helped me adjust to | 290 | 115 | 122 | 527 |
| being a college student. | $55 \%$ | $22 \%$ | $23 \%$ |  |
| I felt comfortable in my Quest I course. | 417 | 58 | 51 | 526 |
|  | $79 \%$ | $11 \%$ | $10 \%$ |  |
| My Quest I instructor helped me gain an | 288 | 112 | 124 | 524 |
| interest in the topic of the course. | $55 \%$ | $21 \%$ | $24 \%$ |  |

Table 2. Every Quest I course has a peer mentor. Do you agree or disagree with the following statements related to your experience with your peer mentor?

| Survey Question/Prompt | Agree <br> $\# / \%$ | Not Sure <br> $\# / \%$ | Disagree <br> $\# / \%$ | Total <br> Responses |
| :--- | :---: | :---: | :---: | :---: |
| My peer mentor provided useful advice | 328 | 75 | 122 | 525 |
| for first-year students. | $62 \%$ | $14 \%$ | $23 \%$ |  |
| My peer mentor was available when I | 281 | 149 | 95 | 525 |
| needed him/her. | $54 \%$ | $28 \%$ | $18 \%$ |  |
| I connected with my Quest I peer | 183 | 128 | 214 | 525 |
| mentor. | $35 \%$ | $24 \%$ | $41 \%$ |  |

Table 3. Think about your entire Quest I experience. Please indicate the VALUE of each element of Quest I.

| Question | Very Valuable \#/\% | Somewhat Valuable \#/\% | Not Valuable \#/\% | Did Not Happen \#/\% | Total Responses |

# Spring 2015 Indirect Assessment for Quest II Executive Summary 

OSHKOSH

## Spring 2015 Indirect Assessment for Quest II Executive Summary

## Background

This report is a part of our University Assessment plan, approved by Faculty Senate. These data will be part of the Oshkosh Student Achievement Report and the documentation for our Higher Learning Commission (HLC) visit. The following is a brief summary of key survey observations. It is followed by a number of charts and tables which portray key items. The full survey results are available from University Studies Program or the Office of Institutional Research.

## Key Observations

- There were 333 student who responded; 196 indicated they were female, 79 students indicated they were male, 58 did not respond. See chart 4 for the ethnic background of the respondents.
- The students were asked which signature question was the focus of their Quest II course. All of the signature questions were represented in the responses. 28 students did not know which question was the focus of their course.

0 Intercultural Knowledge and Competence (How do people understand and bridge cultural differences?) - 69/25\%
o Sustainability (How do people understand and create a more sustainable world?) 101/37\%
0 Civic Learning/Civic Knowledge and Engagement (How do people understand and engage in community life?) - 76/28\%

- The students were asked if they planned on coming back to UW Oshkosh next year. See Chart 1.

0 The students who responded yes were asked what influenced their decision to continue at UW Oshkosh. The primary reason was their goals require a college education, so they needed to continue. See Chart 2.
0 The students that in indicated they were not returning to UW Oshkosh were asked Why not? Of the 21 students that responded that they were NOT planning on coming back to UW Oshkosh, the primary reason was that they were transferring to another school. See Chart 3.
0 The students that responded Maybe, when being asked if they were going to return to UW Oshkosh were ask Who will you talk to about this decision? Of the 16 students who were undecided about returning (i.e. maybe) a majority (12/86\%) of the student indicated they would talk to their parents or family. Only one students indicated they would talk to friends at school and one student indicated they were waiting to hear from a school they wanted to transfer to. Two students did not respond.

- See Table 1 and 2 for the student's reactions to the Quest II course experience. Overall students indicated that they felt comfortable in their Quest II course and they had many opportunities to actively participate during class. Students found the classroom environment and interaction to be the most valuable element of Quest II, but they also found the exploration of ethical reasoning and that all students in the class were in their second semester to be valuable.

Chart 1. Are you coming back to UW Oshkosh next year?

|  | Number | Percent |
| :--- | :---: | :---: |
| Yes | 296 | $89 \%$ |
| Maybe | 16 | $5 \%$ |
| No | 21 | $6 \%$ |
| Total | 333 | $100 \%$ |

Chart 2. What has influenced you most to decide to continue your college journey at UW Oshkosh? Of the 296 students who responded they were planning on coming back to UW Oshkosh, the primary reason was their goals require a college education, so they needed to continue. Some of the other reasons they gave were friends, membership in a Greek organization, and athletics. Students were able to choose all that applied.

Chart 3. Why not? - Of the 21 students that responded that they were NOT planning on coming back to UW Oshkosh, the primary reason was that they were transferring to another school. Students also indicated they did not feel connected to people and they did not feel connected to the campus. Students were able to choose all that applied.

Table 1. Think about your Quest II course. Do you agree or disagree with the following statements? Students indicated that they felt comfortable in their Quest II course and they had many opportunities to actively participate during class. Just over half of the students thought the instructor made the topic interesting, but about a quarter did not think the instructor made the course interesting, the remainder were not sure.

| Survey Question/Prompt | Agree <br> $\# / \%$ | Not Sure <br> $\# / \%$ | Disagree <br> $\# / \%$ | Total <br> Responses |
| :--- | :---: | :---: | :---: | :---: |
| I felt comfortable in my Quest II course. | 214 | 32 | 29 | 275 |
| I had many opportunities to actively | $78 \%$ | $12 \%$ | $11 \%$ |  |
| participate during class. | 215 | 39 | 21 | 275 |

## Chart 4. What is your ethnic background?

## 2015 Indirect Assessment for Quest III Executive Summary

OSHKOSH

## 2015 Indirect Assessment for Quest III Executive Summary

## Background

This report is a part of our University Assessment plan, approved by Faculty Senate. These data will be part of the Oshkosh Student Achievement Report and the documentation for our Higher Learning Commission (HLC) visit. The following is a brief summary of key survey observations. It is followed by a number of charts and tables which portray key items. The full survey results are available from University Studies Program or the Office of Institutional Research.

## Key Observations

- There were 152 student who responded; 93 indicated they were female, 55 students indicated they were male, one indicated other, and 3 did not respond. See table 4 for the ethnic background of the respondents.
- The students were asked which signature question was the focus of their Quest III course. All of the signature questions were represented in their responses. 11 students did not know which question was the focus of their course.
- Intercultural Knowledge and Competence (How do people understand and bridge cultural differences?) - 62/42\%
- Sustainability (How do people understand and create a more sustainable world?) 45/30\%
- Civic Learning/Civic Knowledge and Engagement (How do people understand and engage in community life?) - 31/21\%
- The students were asked to what extent they agree or disagree with statements about their Quest III course. Overall they felt that their Quest III course's community partner was a good match with the course, that it provided a solid introduction to UW Oshkosh or the Oshkosh community, and that the course was a valuable experience. See Table 1.
- When asked to agree or disagree with questions about the alumni mentor in their Quest III course. Overall the students disagreed with the statements. They did not find the mentors provided a valuable perspective, they were not active in the course, and they did not make the courses community experience less difficult. See Table 2.
- Finally the students were asked to think about different elements of their Quest III course. Most of the students found it easy getting to and from the community partner site and understanding the project, although a quarter of them found these things difficult. They also found it difficult balancing the expectations of the Quest III course with their other coursework. See Table 3.

Table 1. Think about your Quest III course. To what extent do you agree or disagree with the following statements?
The students felt that their Quest III course's community partner was a good match with the course, that it provided a solid introduction to UW Oshkosh or the Oshkosh community, and that the course was a valuable experience. Few of them felt the course increased their interest in the topic or would lead them to seek out other opportunities for community engagement.

$\left.$| Survey Question/Prompt | Strongly <br> Agree/Agree <br> $\# / \%$ | Unsure <br> \#/\% | Disagree <br> \#/\% | Strongly <br> Disagreed <br> $\# / \%$ |
| :--- | :---: | :---: | :---: | :---: | | Total |
| :---: |
| Responses | \right\rvert\,

Table 2. Some Quest III courses have Alumni Mentors to assist with the community experiences. If there was an Alumni Mentor in your course, to what extent do you agree or disagree with the following statements?
The students felt that the alumni mentor was not valuable and did not make the community experience any easier. This could be due to the student's belief that the alumni mentors were not very active in the course. For most of the questions many students were unsure of the alumni mentor's contributions.

| Survey Question/Prompt | Strongly <br> Agree/Agree <br> $\# / \%$ | Unsure <br> $\# / \%$ | Disagree <br> $\# / \%$ | Strongly <br> Disagree <br> $\# / \%$ | Total <br> Responses |
| :--- | :---: | :---: | :---: | :---: | :---: |

| My Alumni Mentor was very <br> active in the course. | 32 <br> $21 \%$ | 44 | 23 | 52 | 151 |
| Without the Alumni Mentor, the <br> Community Experience in the <br> course would have been more <br> difficult. | 17 <br> $11 \%$ | 48 <br> $32 \%$ | 32 <br> $21 \%$ | $54 \%$ | $36 \%$ |

Table 3. Think about the Quest III course elements listed below. How would you evaluate the difficulty of each element?
Most of the students found it easy getting to and from the community partner site and understanding the project, although a quarter of them found these things difficult. They also found it difficult balancing the expectations of the Quest III course with their other coursework.

| Question | Very Difficult/Difficult \#/\% | Neutral \#/\% | Easy <br> \#/\% | Very Easy \#/\% | Total Responses |

# Student Achievement Services 2015-2016 Annual Report 

OSHKOSH

## SECTION 1

## Narrative

The Student Achievement Services (SAS) in the Division of Academic Support of Inclusive Excellence is composed of three departments each distinctive in nature but operating within the scope of the mission and vision of the division. The departments that make up SAS are Multicultural Retention Programs (MRP), Multicultural Education Center (MEC) and PreCollege Programs. The following is a brief summary of the purpose of each of the units:

- Multicultural Retention Programs (MRP) provides academic and student support services to assist in the enrollment, retention and graduation of multicultural (African American, Asian/Hmong American, Latino/Hispanic American and Native American) and disadvantaged students (low income, first-generation). Programs and services offered in MRP include: academic coaching and tracking, specialized tutoring in English and Mathematics, first-year student workshops/seminars, leadership development, personal, career and financial aid assistance, mentoring and referrals to other academic and student support services. The MRP staff also advise the Asian Student Association, Black Student Union, Hmong Student Union, United Women of Oshkosh (formerly The Sisterhood) and the Multicultural Education Coalition which is the umbrella organization for all multicultural student organizations on campus. They also work with and support the InterTribal Student Organization and the Student Organization for Latinos.
- The Multicultural Education Center (MEC) is the home of the Norma Shanebrook Multicultural Library, serves as a campus and community resource. The MEC staff sponsors programs and activities to increase the level of understanding and appreciation for cultural diversity on campus and in the community. The MEC also serves as a "home away from home" for all students, particularly multicultural and multiracial students, faculty and staff.
- PreCollege Programs provides academic and personal development courses to help middle and high school students prepare for college. In addition, students participate in educational, cultural and social activities to enrich their academic experience. Six programs focus on nursing, business, education, science, technology and engineering, media, English, speech communication and career exploration. One program has a focus on middle school reading and mathematics, as well as academic activities during the school-year scheduled at the UW Milwaukee campus.

While the MRP offers many programs and services throughout the academic year that support persistence, retention and graduation, our most impactful programs (Signature Programs) are
those we consider to be high impact practices (HIP) as they provide substantial educational benefits to students of color on campus. These include:

- Titans on the Go! - This new initiative was presented fall 2015 as a pilot program for firstyear students of color admitted with low ACT scores to ease student transition from home to the rigors of attending college and adjusting to the demands of residential living. This also provided an opportunity for students to acquaint themselves with resources and support services and foster community. The program included early move-in on Saturday, September 5, 2015 with a light breakfast and lunch for students, parents and family. Approximately 150 guests/students were in attendance and overall program evaluation measures showed above average to excellent ratings.
[] MRP Tracker (implemented 2011) is a concerted and coordinated effort between the faculty and staff of the Multicultural Retention Programs targeting academically at-risk students with cumulative grade point averages of 2.3 and below. It is designed to proactively identify students experiencing academic difficulties to implement action-based measures to help them in their successful pursuit of postsecondary education. During the fall 2015 semester, 699 reports were sent to 268 faculty/instructional staff with a return rate of $69.67 \%$ (487). Of those that were returned, 118 of the 239 (single reports) indicated the need for intervention. MRP staff assisted students with understanding the faculty identification of areas for needing improvement and made referrals to faculty, academic and campus resources.
- MRP Tracker Plus (implemented Fall 2015) is a new initiative that focuses on students' transition to the campus community. Similar to MRP Tracker, the program is a concerted and coordinated effort between the faculty and MRP staff. Faculty responses are based on observations during the first two weeks of classes during the fall semester. These observations are not based on academic performance. We ask faculty to observe and identify behaviors of students' experiencing transitional-type issues such as absences, tardiness, homesickness, lacked of preparedness, participation, missing books/materials, motivation, time management and other things as they perceive to be relevant to improving student success. The tables below show the total roster (1125), target number of students (214), returns (205), number of students requiring intervention (139), areas of concern by race/ethnicity (226) and listing by departments:

| MRP Spring 2015 Roster Report* |  |  |  |  |  |  |  |

| 4th Year: | 25 | $12.20 \%$ | 14 | $56.00 \%$ | 11 | $44.00 \%$ |  |  |

| MRP Spring 2015 Tracker CONCERN Report (Single |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Records) |  |  |  |  |  |  |  |

Although the Tracker Plus focuses on college transitional behaviors in the classroom, faculty also reported on students' academic performance. The table above shows similar concerns as those shown on the MRP Tracker for the past few years both in math and biology.

## - Titan Steps 2 Success

## LAUNCH - Success Strategies Seminars (implemented Spring 2016)

The success strategies for underrepresented first year students is an interactive program facilitated through the MRP to assist underrepresented students with self-efficacy strategies by which they exert control over their own motivation, behavior and social environment. This year's program started with a presentation by Jahmad Canley, co-author of Launch - Success Strategies for the First Year Experience followed with a series of 10 weekly lectures facilitated by the MRP staff. The program offered workbooks to students and each session was accompanied by a series of videos to facilitate instruction.

For Spring 2016, the program recruited 17 students, however, attendance at each session varied from 6-10 students. Of ten active participants completing the program, all found the program to be of value as it offered an opportunity to develop goals, improve motivation and understand the process of self-efficacy.

To improve program participated, efforts are being made to increase attendance. This year we are asking Jahmad Canley to train four student leaders to assist with recruitment and facilitate the sessions along with MRP staff. We have also requested a short video presentation to be linked to the email invitation.

## - Student Leadership and Development

The first UW Oshkosh and General Electric (GE) Healthcare Leadership Institute was developed to bring together students, select members of the GE Healthcare team, and UW Oshkosh administrators to facilitate and discuss $21^{\text {st }}$ century leadership strategies and provide students with career readiness skills that will position them for internships, work while in college and life beyond UW Oshkosh. The overarching goal was to increase college persistence and graduation, particularly among underserved students and prepare them for success inside and outside of the classroom, to provide students with practical information and tools to support their college and career success and to provide students with an opportunity to engage with GE Healthcare staff and learn from them and finally for student leadership development.

Twenty (20) UW Oshkosh students, one administrator and one staff member participated in the Institute. Also five GE Healthcare team members, along with two former GE Healthcare team members participated in the Leadership Institute. The composition of both the students and the facilitators proved to be dynamic with transformative takeaways. Student participants were made up of leaders and emerging leaders from UW Oshkosh's Multicultural Education Coalition (MEC). MEC consists of the Black Student Union, Inter-Tribal Student Organization, Asian Student Association, Student Organization of Latinos, Hmong Student Union and the Sisterhood organization. MEC is without a question one of the strongest student organizations while representing only $13 \%$ of students on campus.

Other student leadership development strategies facilitated by the MRP included attendance at the following annual conferences:

1. American Multicultural Student Leadership Conference, Milwaukee, WI
2. National Black Student Union Conference, Whitewater, WI
3. Midwest Asian American Student Union Conference, Twin Cities, MN
4. East Coast Asian American Student Union Conference, New Brunswick, NJ
5. Student Diversity and Leadership Conference, Oshkosh, WI

Each year students from the University of Wisconsin Oshkosh take advantage of the many opportunities that are offered through the Summer Affirmative Action Internship Programs (SAAIP). The SAAIP provides valuable training and exposure to working with the State of Wisconsin agencies. This is an excellent opportunity for students to gain professional experience and build relationships with others who are in the fields relevant to their major(s).

During 2015-2016 academic year, fifteen (15) UW Oshkosh students applied for the SAAIP internship program. This put UW Oshkosh at number eight (8) in the thirty-five (35) schools that participated this academic year. Among the fifteen (15) applicants, twelve (12) met the eligibility for SAAIP (according to the Equal Employment Opportunity Specialist). UW Oshkosh has one of the better ratios of eligible applicants compared to other agencies. Seventeen percent of the eligible students were selected to participate. Given the limited number of positions available and the scarcity of financial resources, the two students chosen is of significance as they are paid positions.
[6] Other Annual Cultural/Social/Educational Events
-Holidays Around the World
-Black Thursday Commemoration
-Celebration of Cultures
-Black History Month
-Asian Heritage Month
-Martin Luther King, Jr. Community Celebration
-Multicultural Education Coalition Homecoming Breakfast
-Students of Color Graduation Reception

## Retention Initiatives

[7] Senior Developmental Skills Specialist
During the 2015-2016 academic year, this position provided professional writing assistance for underrepresented students across the curriculum for the purpose of honoring language variations by helping students complete such course(s) successfully. The Writing Skills Specialist offered students consistent, one-on-one professional writing skills and support that included idea-generating sessions, theme-building, editing, proofreading, narrative examination, and speech preparation and rehearsal, among other writing-related endeavors.

## [] Math Tutorial Program

Throughout the Fall 2015 and Spring 2016 semesters, MRP students enrolled in 1034 math classes. Out of this number 38 students chose to seek academic assistance from the Math Tutorial Specialist. Of these 38,36 ( $94.7 \%$ ) of them completed the course by passing with a D or better grade. For the 996 who didn't seek assistance, 685 ( $68.78 \%$ ) completed the class with a D or better grade. This also means that $31.22 \%$ received a grade of F or W . It may be that those who sought help at least felt hope of completing the course as no one in this group withdrew from math courses.

For the academic year 2015-2016
 comparison of success rates for Multicultural
 Retention Programs students who utilized the math tutorial program (participants) with those who did not (non-participants):

## [] Lawton Undergraduate Minority Retention Grant (Lawton Grant)

The Lawton Grant is designed to increase the retention and degree attainment of eligible underrepresented students (racial/ethnic) at the University of Wisconsin (UW) Oshkosh. The purpose of the Lawton Grant is to improve the learning experiences and educational outcomes of eligible student recipients/ participants. Achieving this outcome not only increases and strengthens the compositional diversity for the undergraduate student body; it also improves the educational experiences and learning environments for all students. Lawton Grant is a collaborative effort with the UW Oshkosh Financial Aid Office and the Division of Academic Support of Inclusive Excellence. Full-time students are eligible for up to $\$ 4,000$ per academic year for four years (preferably consecutive) with a maximum of $\$ 16,000$ per student.

2013-2016 Lawton Grant award distribution list by ethnicity:

| Year | African Am | Native Am | SE Asian | Hisp/Latino | Total |
| :--- | :--- | :--- | :--- | :--- | :--- |
| $2013-2014^{* *}$ | 23 | 4 | 33 | 24 | 84 |
| $2014-2015$ | 39 | 12 | 61 | 28 | 140 |
| $2015-2016$ | 49 | 11 | 77 | 40 | 177 |

**The current established system of collecting and assessing applications did not take place until the 20142015 academic school year. Prior to the current system, the UW Oshkosh Financial Aid Office handled all Lawton Grant fund distributions.

2013-2016 Lawton Grant Retention by ethnicity

| Year | African Am | Native Am | SE Asian | Hisp/Latino | Total |
| :--- | :--- | :--- | :--- | :--- | :--- |
| $2013 / 2014^{* *}$ | 2 | 0 | 6 | 2 | 10 |
| $2014 / 2015$ | 11 | 1 | 23 | 10 | 45 |
| $2015 / 2016$ | 23 | 5 | 41 | 23 | 92 |

Data for the 2013-2016 Lawton Grant retention by ethnicity table is based on the number of students that received the Lawton Grant from the previous academic school year to the current academic year. The 2013/2014 year shows the number of students that received the Lawton Grant from the 2012/2013 to the 2013/2014 year, and so forth.

## SECTION II

## Program Updates

During the 2015-2016, to enhance program development and assist students, the MRP staff collaborated with the following areas: Department of Education and Human Services, Department of Foreign Languages, Career Services, Office of Graduate Studies, Reeve Memorial Union, Undergraduate Academic Resource Center, Registrar's Office, Counseling Center, Office of International Education, Student Leadership and Involvement Center, Center for Academic Resources, Writing Center, Wisconsin Department of Workforce Development and GE Healthcare. Along with these departments including faculty, the MRP staff has worked collaboratively to improve retention and graduation. The collective efforts of our campus community are all responsible to improving the rates of enrollment, retention and graduation of underrepresented populations. The efforts of the MRP staff and its continuous collaborations with all campus entities helps to promote student success. The following tables listed under Section II relate to enrollment, retention and graduation of underrepresented students served the by Multicultural Retention Programs:

## History by Race \&

Ethnicity 2011-
2015

|  |  |  |  |  |  | *Total | 74.2 | 75.4 | 75.0 | 78.2 | $77 \cdot 4$ |

## * * *Office of Institutional Research

Enrollment continues to increase with growth to be greater for Fall 2016. On the flip side, although the retention of first-year, full time students has steadily increased from 2011 to 2015, the gap in academic performance continues to grow.

> Overall graduation rate for students of color was $43.9 \%$ compared to White students of $55.5 \%$.
*The University of Wisconsin System Data New Freshman Enrolling Full-Time in Fall 2008 \& Graduating at the Same UW Institution within 4-6 Years by Race/Ethnicity

| AA | AI | SEA | Hisp/Latino | 2+ <br> Races | Other <br> Asian <br> $\mathbf{1 2}$ |
| :--- | :--- | :--- | :---: | :--- | :--- |
| $\mathbf{5 0}$ | $\mathbf{2 3}$ | $\mathbf{4 5}$ | 42 | $\mathbf{1}$ | $\mathbf{1 2}$ |
| $15 / 30 \%$ | $7 / 30.4 \%$ | $23 / 51.1 \%$ | $21 / 50 \%$ | 0 | $10 / 83.3 \%$ |

This table shows that retention and graduation rates of students of color except Other Asians is of major concern. The overall number of students was 173 with a graduation rate of 43.9\% (76 students).
*Fall 2008 to Fall 2015

## Retention/Graduation Rate by Race/Ethnicity

| Race/ <br> Ethnicity | N | Ret to <br> year 4 | 4 yr grad | 5 yr grad | 6 yr grad |
| :--- | :--- | :--- | :--- | :--- | :--- |
| AA | 460 | 41.8 | 5.0 | 16.2 | 26.7 |
| AI | 175 | 50.0 | 9.9 | 29.9 | 31.3 |
| SEA | 368 | 53.1 | 3.3 | 22.8 | 36.1 |
| Hispanic | 365 | 48.8 | 8.8 | 26.5 | 38.8 |

This table shows all students of color on campus from fall 2008 through fall 2015. According to this table there were 1368 students within this time. Retention to year 4 was below 50\% for both African American and Hispanic students similar to those that entered as new freshman for fall 2008 and graduating within 6 years.
*The UW System data used to develop table is consistent with data from the Office of Institutional Research, UW Oshkosh.

The Semester GPA for Full-time students by Class and Race/Ethnicity tables show on an average how students of color based on academic standing are performing academically compared to each other, again, showing the gap between underrepresented and White students.

* 147 FYR students received a semester GPA <1.0 yet were not formally put on suspension, but rather converted to PRO1 based on practice at that time. Those 147 students are therefore included in probation totals, and not in suspension totals in the Fall 2009 term only. Beginning in Fall 2010 FYR students who earned a GPA < 1.0 in their first semester were suspended and required to appeal and are reflected in suspension totals only.
${ }^{1}$ SUS6 was first used in Fall 2010.
${ }^{2}$ LLCE was first part of the campus-wide process in Fall 2010.
${ }^{3}$ The Academic Standing Review Council was not formed until Spring 2010.
** SUS5 not consistently reported prior to Fall 2010.
Note: UG and FYR " n " obtained from the Office of Institutional Research Fact Book Preliminary.
Note: On Campus/Res Hall "n" obtained from the Department of Residence Life.
