

**Ronisha Howard (President)  
and Goodwill Obieze (VP)**

#SuitUpForChange means that during our term, Roni and Goodwill wants students to be more open minded and inclusive on and off campus. We can do this by creating a safer campus community, increasing minimum wage for campus jobs, tackling parking issues, Campus Restructuring Awareness, and many other issue that we may not be aware about. Together we can #SuitUpForChange by providing an open space for all student to discuss issues concerning our campus. Which is why we believe that through our various leadership role, Interpersonal skills, Flexibility, Communication skills, and involvement we are the best, qualified candidate for the Office of President and Vice President.

OSA Election Commission

## Brett Spangler (President) and Chase Reljic (VP)

We're running for President and Vice President because we want to continue to advocate for students. Our main focuses will be making campus safer and more inclusive, as well as fixing the parking system. In addition, this next year will be really important for UWO students, and students deserve leaders with experience during this time. Our combined five semesters of experience in OSA, and the fact that Brett is the current Vice President, mean that we can listen to students' needs and begin to help right away. Lastly, in order to make sure that UWO students are getting the dedicated leadership they deserve, we will quit our current jobs so that helping students is our full-time priority.

## Brian Carter (President) and Andrew Mertins (VP)

Student Government at UW Oshkosh has become a privileged wheel of influence that has forgotten its true purpose - serving the student body. Students at large are in the dark, however it's our money that is being wasted, and our sensitivities that are being ignored. OSA has become more irrelevant and ineffective than ever before. We do not intend to stop this privileged wheel and turn it in a different direction, but we intend to break the wheel. We are students who desire to serve. We have no private agenda but have decided once again to use our platforms to improve our campus community. Our team's experiences are extensive. Not only as servant leaders in our University community but in other areas of our lives. We have learned patience, gained resilience, and also strong strategic thinking

## OSA Senators

### Anton Sederquist

I'm running because with all that's going on around campus and system wide, I believe that this student body needs strong representation in its government, and I believe that I am

### Jacob M. Banfield

I'm running for OSA Senate to be a conservative voice for students. I would like to further improve my leadership skills by doing so and get to know more of my fellow Titans. The primary issues that affect students are parking inconsistencies, meal plan issues, freedom on campus, accountability, and fiscal responsibility.
