How to Waitlist a Course in Titan Web

1. Go to https://uwosh.edu/

2. Hover over “Titan Services”

3. Select “Titan Web”

4. Click “Titan Web Student Information”

5. Log into your Titan Web account
6. Click “Search”

Note: Don’t use College Scheduler for waitlisted courses as they do not show up

7. Search for the course, be sure to uncheck the “Show Open Classes Only” box

8. Select the desired lecture section (lectures are indicated by LEC)

*Note: When selecting a lecture, the first letter in the “Section” column indicates which lectures and labs are associated. Keep this in mind when making your selection.
9. It will then display all corresponding lab sections. You may want to choose the shortest waitlist. To see how many students are on a waitlist, click the blue link under the Section column.

10. The red arrow indicates where to find the number of students on the waitlist.

To see the length of other section’s waitlists, click the blue “Return to Search for Classes” link.
11. Select the desired lab section, click “Next”

12. Click “Next”

13. IMPORTANT: Check the “Waitlist if class is full” box, click “Next”
14. Go to your shopping cart by clicking the blue “Shopping Cart” link

15. Select the check box for the appropriate course, click “Enroll”

16. Click “Finish Enrolling”
A green check indicates you’ve been added to the waitlist. It will also display your position on the waitlist.

*Note: You’re able to waitlist up to 11 credits in different courses but can only waitlist lab courses with different lectures and labs. For example, you can waitlist lecture A09-LEC and an associated lab like A01-LAB and would only be able to waitlist lecture B09-LEC and an associated B lab like B12-LAB.
