

Understanding the Titan Web Enrollment Shopping Cart

- The Enrollment Shopping Cart in Titan Web is a staging area for courses which you plan to enroll in. A course in your Shopping Cart is **NOT** on your schedule, you are **NOT** on a waitlist and it **DOES NOT** give you any priority for a class which may be filled.
- You must use the ENROLL button to finish enrolling in courses. Successful enrollment will result in a Green Checkmark with a successful enrollment message. Courses successfully enrolled in will be removed from your Shopping Cart and appear on your schedule.
- An unsuccessful enrollment attempt will generate a Red X with an enrollment error message stating why the enrollment failed. Courses unsuccessfully enrolled in will stay in your Shopping Cart.
- If you are no longer planning to enroll in a course, you should delete the course from your Enrollment Shopping Cart.
- Special Note for Full Courses:
 - If you leave a course in your Shopping Cart the Status (Open = Green Circle, Closed = Blue Square) will update the next time you visit your Enrollment Shopping Cart. You can use this to monitor if a seat opens up. If the Status changes to Open, you must click on the Enroll button and follow the steps in order to secure a seat in the course.
