

Lake Winnebago Region Restructuring
 Project Decision

Originating Work Group or Department:	Academic Advisory Group-Curriculum/Program Array Working Group
Date Submitted for approval:	7/31/2018
Decision Title:	FSCASL-Outcomes Assessment Plan for Associates Degree Program at Access Campuses

Decision

By Spring 2019, the UWO Faculty Senate Committee on Assessment of Student Learning (FSCASL) will work with faculty from the access campuses to develop an outcomes assessment plan for the Associate Degree program at the access campuses.

Background

Details:
 In the Fall 2018 semester, UW Colleges will collect data for assessing student learning outcomes from all of the access campuses, disaggregate the data by campus, and provide us with the data from the Fox Valley and Fond du Lac campuses. That data will be submitted to the UW Oshkosh Faculty Senate Committee on Assessment of Student Learning (FSCASL) for analysis and feedback.

During 2018-2019, FSCASL will work with faculty from the Fox Valley and Fond du Lac campuses to develop an outcomes assessment plan for the access campuses with the goal of incorporating that plan into the UW Oshkosh Assessment Plan. The plan for the access campuses will be submitted to the Faculty Senate for approval no later than Spring, 2019.

Rationale:
 UW System has decided to provide support for the administration of the current UW Colleges outcomes assessment program for the Fall 2018 semester, with the expectation that the receiving institutions will assume responsibility for assessment afterwards. This makes it imperative that FSCASL works quickly to develop an assessment plan for the access campuses for the 2019-2020 academic year and beyond. Given the differences in mission and in institutional needs and constraints, it is vital that FSCASL work closely with faculty on the access campuses to develop the new assessment plan.
