

Lake Winnebago Region Restructuring
Project Decision

Note: The purpose of Project Decisions is to serve as a record of the agreement of the University leadership to pursue activities, operational processes, and policies that support the "Three Campuses, One University" credo. However, they do not—and cannot—commit the University to allocation of budgetary resources or additional personnel that might be required to pursue them. Such obligations take place through separate processes within UW Oshkosh. As such, the implementation of all Restructuring Project Decisions is always subject to resource availability.

Originating Work Group or Department:	Student Services / Student Affairs
Date Submitted for approval:	Examined by VCRG on 12/20/19
Decision Title:	Increase Student Life at the FDL Campus

Recommended Decision

Recommend a .50 FTE position be added to the FDL student Affairs Solution Center to provide dedicated student development and programming for student life on campus. The .50FTE increase will allow for enhanced general and career advising retention. Having the student life staff dedicated to student development, leadership and government will increase retention and potentially increased AAS degrees. This added position would also allow for further collaboration of the needed student training related to bias, SAFE and other diversity trainings/program development.

Background

The current student life position is combined with the new student advising and registration position. The workload has increased over time due to the high volume of needs to new student programming. A dedicated position to student life is needed to increase student life programming, student leadership and student training needs.

Budget Implications

\$22,000 from "Crosswalk Funding"

Next Steps

Mark D. Ridd
