

Lake Winnebago Region Restructuring
Project Decision

Note: The purpose of Project Decisions is to serve as a record of the agreement of the University leadership to pursue activities, operational processes, and policies that support the "Three Campuses, One University" credo. However, they do not—and cannot—commit the University to allocation of budgetary resources or additional personnel that might be required to pursue them. Such obligations take place through separate processes within UW Oshkosh. As such, the implementation of all Restructuring Project Decisions is always subject to resource availability.

Originating Work Group or Department:	Systems / Information Technology
Date Submitted for approval:	Examined by VCRG on 12/20/19
Decision Title:	Software Licensing

Recommended Decision

Oshkosh IT staff have reviewed the list of software in use at each campus and come up with this list of needed site licenses. These licenses need to be renegotiated not just for additional quantity but to assure that multi-site installation is covered.

Background

Software is consumed with a larger FTE count, we will have to set aside budget resources to pay for it or reduce software service expectations.

Budget Implications

\$55,000 from "Crosswalk Funding"

Next Steps
