## **UW Oshkosh Office of the Chancellor Order – Limiting Access to UW Oshkosh Campuses per UWS Chapter 18.11(7)(e) – 08102021-01**

**DATE OF ORDER:** August 10, 2021; Goes into effect immediately.

The Centers for Disease Control (CDC), the Wisconsin Department of Health Services (DHS), local health departments and healthcare professionals continue to cite masks and face coverings as easy ways to help prevent respiratory droplets from traveling into the air and onto other people when the person wearing the face covering coughs, sneezes, talks, or raises their voice. Many medical professionals and public health experts believe that wearing face coverings is the simplest way to slow and prevent the spread of COVID-19 virus without requiring people stay in their homes.

Risk reduction strategies will continue to be important as our state and counties strive to vaccinate people as quickly as possible and as the threat of widespread virus variants looms.

Based upon the foregoing, I, Andrew J. Leavitt, Chancellor of the University of Wisconsin Oshkosh, by the authority vested in me by the Laws of the State of Wisconsin, including, but not limited to, Wis. Stat. ch. 36, and Wis. Admin. Code secs. UWS 17-18<sup>1</sup>, order the following as necessary to prevent, suppress, and control the spread of COVID-19 on UWO campuses:

- 1. Face Coverings.** Face covering means a piece of cloth or other material that is worn to cover the nose and mouth completely. A face covering must be secured to the head with ties, ear loops, or elastic bands that go behind the head and must fit snugly but comfortably against the side of the face. Cloth face coverings must be made with two or more layers of breathable fabric that is tightly woven (i.e., fabrics that do not let light pass through when held up to a light source). A face covering does not include bandanas, single layer neck gaiters, face shields, goggles, scarves, ski masks, balaclavas, shirt or sweater collars pulled up over the mouth and nose, or masks with slits, exhalation valves, or punctures because public health experts have determined that these types of coverings are ineffective at preventing respiratory droplets from entering the air.

<sup>1</sup> In addition to the generalize authority cited above, this order is being issued pursuant to the authority vested in me by the laws of the State of Wisconsin and applicable policies in the University of Wisconsin System, including, but not limited to the following: Wis. Stat. s. 36.11(1)a., Wis. Admin. Code ss. UWS 17.09(1), UWS 17.09(8), UWS 17.09 (14), UWS 17.09 (15), UWS 18.08(9)(b), UWS 18.11(7)(e), and Regent Policy 23-2.
