UW Oshkosh Office of the Chancellor Order: 08182021-02.2

DATE OF ORDER: October 25, 2021; Goes into effect immediately, superseding all previous orders.

The Centers for Disease Control (CDC), the Wisconsin Department of Health Services (DHS), local health departments and healthcare professionals continue to cite risk reduction strategies as our state and counties strive to vaccinate people as quickly as possible and as the threat of widespread virus variants looms. UWO is working in cooperation with national, state and local health officials to slow and prevent the spread of COVID-19 virus without requiring people to stay in their homes.

COVID cases have been trending downward over the last 30 days in Wisconsin. From Sept. 20 to Oct. 18, 2021, the seven-day average of COVID-19 cases in Wisconsin has decreased by 33%. COVID-19 cases in Fond du Lac County have decreased by 66% and Winnebago County by 70% in the same period. Eligible residents in Fond du Lac County are fully vaccinated at a rate of 48.0% and in Winnebago County 53.3%. The UWO community has maintained a 1% average positivity rate since Sept. 29, 2021, along with exceeding the goal of 70% vaccination rate for the student and employee population.
